EXPERIENCE

5/2024 - 9/2024 **Full Stack Developer - Intern** **Atompoint, Karachi**
- Successfully completed a five month internship, worked on **Wakeel.AI** application using Next.js.
- Developed hiring lawyers feature and contributed to the development of multiple frontend interfaces and APIs.

3/2024 - 4/2024 **IT Department - Intern** **Pak Suzuki Motor Company Limited, Karachi**
- Contributed to the development of the Suzuki dealership portal's user interface and functionality through active participation in design discussions and implementation efforts.

PROJECTS

MERN, ML, Scrapy **ScholarSphere, AI-powered platform for research opportunities** scholar-sphere-two.vercel.app

- Developed sophisticated application for scholars, displaying **Research Grants, Conferences and Research Journals** from all around the world.
- Integrated **ML Models** to develop **Recommendation System** for grants, conferences and journals based on user's profile.
- Scraped the data from more than 20 websites using **Scrapy** and used **Selemium** for websites that are dynamically loaded in browser.

Flutter, Firebase **Hazri, Facial Recognition based Attendance App** m-faiq-israr/hazri (github)

- Applied Machine Learning, utilized Flutter, Firebase, TensorFlow, Google's FaceNet model and achieved **<120m inference time** for successful on-device student attendance through face recognition.

Next.js, Stripe **ElectroElite, E-commerce with admin control and Stripe integration** m-faiq-israr/ElectroElite (github)

- Designed and developed a full-featured e-commerce platform for electronic products using **Next.js**, ensuring a fast and responsive user experience.
- Built a dedicated admin portal to efficiently manage product inventory, user accounts, and order payments with real-time updates.
- Seamlessly integrated secure online payments using **Stripe**, enabling smooth checkout and transaction management.

React.js, Firebase **CMS, Resume builder with customizable templates and real-time preview** m-faiq-israr/CMS (github)

- Implemented a user-friendly interface that allows users to input personal and professional information for dynamic resume generation.
- Designed and developed multiple customizable resume templates, enabling users to preview, select, and download their preferred format with ease.

EDUCATION

11/2021 - 6/2025 **NED University of Engineering and Technology** **Karachi, Pakistan**
B.E Software Engineering

3/2019- 6/2021 **Adamjee Govt. Science College** **Karachi, Pakistan**
Intermediate - Pre Engineering

SKILLS

Languages: JavaScript, TypeScript, SQL

Backend: NodeJS, Next.js, Express

Frontend: ReactJS, HTML, CSS, TailwindCSS, GSAP, Framer-Motion, Three.js, Shadcn, Bootstrap

Others: MongoDB, MySQL, Firebase, Flutter, Machine Learning, Git, Postman, Dockers

OTHERS

2022 **MongoDB Node.js Developer Path**
- Completed the learning path of 20 hours, a pre-requisite for **MongoDB Associate Developer Exam**.
